\$2.48 Men's Lace Rubber Boots, \$2.48.

Men's (Hub mark) Laced Twaweds. Sold everywhere at \$3.50, booster day price

\$2.48

SAYS BOARD MUST BUILD HIGH SCHOOL AT WEST MILFORD

Writer Asserts That the Matter Was Settled by the Voters Two Years Ago.

(Communicated.) Perhaps it would be as well that the public have an opportunity to learn the true condition regarding the Union district high school located at West Milford.

In the article in a recent Sunday's issue of the Telegram the impression was left that this is a new subject and that the board of education has ignored the wishes of the citizens of Union district. Let us see if such is the case.

In the fall of 1912 the board of

education then composed of E. Thad Curry, president, Claude W. Gaston and Wesley Summerville established a high school at West Milford which was "open to all pupils of sufficient attainment in the magisterial district" under the school law of West Virginia, chapter XLV of the code, section 28, which reads as follows:

"Any district in which there is a town or village having four or more rooms in the same building a high school may be established."

As the town of West Milford was, and is the only town in the district in which there is a school of four rooms there can be no question as to where the high school should be located in the district.

In May, 1913, the board of education found the attendance to be so large that additional buildings were necessary to accommodate the pupils, on May 20, 1913, the board of education by its president, E. Thad Curry, and its secretary, L. R. McMillan, ordered an election under section 30 (a) of the aforementioned chapter of the code. The order for the election was as follows:

"NOTICE OF ELECTION FOR DISTRICT HIGH SCHOOL.

"The undersigned board of education of Union district of Harrison county, hereby gives notice to all the qualified voters of Union district, Harrison county, that at a meeting of said board held on the 17th day of May, 1913, the following resolution was adopted by said board, and action thereon and election therein provided for, was directed to be given, that is to say:

"Whereas, this board deems it ex-

pedient to establish a high school of the first class, offering a course of study of four years of not less than thirty-six weeks each, and employing not fewer than three thoroughly qualified high school teachers, who shall devote all their time to the teaching of high school subjects, for this district at the town of West Milford, that the site for same shall be the present school grounds belonging to the said board in said town, and

"Whereas, the estimated expense of establishing the same, including the costs of building, the necessary additional rooms to the present school building in said town, furniture, books and apparatus, is twenty-seven hundred and fifty dollars, and the estimated annual expense of supporting said school after it is in operation, is two thousand dollars for teachers' salaries, and three hundred for contingent expenses, and

"Whereas, to assist in the maintenance of such high school, the law now in force provides for an annual appropriation of eight hundred dollars out of money in the state treasury.

"Therefore, be it resolved by the board of education of Union district that a high school of first class be established in the town of West Milford in Union district, Harrison county; that the same be upon the lot in said town, now belonging to the board and used for school purposes, and the same be established at the estimated cost of establishing and for the annual expense of supporting the same as aforesaid.

"Provided, however, that the question of authorizing the establishing such high school shall first be submitted to the voters of Union district, at a special election to be held for that purpose on Tuesday, the 24th day of June, 1913, at the several regularly established voting places in said district and received three-fifths of all the votes cast for and against the same. The ballot used in voting on the question shall have written or printed thereon the words, "FOR DISTRICT HIGH SCHOOL" and "AGAINST DISTRICT HIGH SCHOOL."

"Said election to be otherwise held and conducted an other result thereof certified as provided by law.

"Said election will be held on the said 24th day of June, 1913, at the following places to act as commissioners thereof:

"Precinct No. 1, Mineral school house, W. J. Law, R. H. Paugh, Arnold

Oldaker.

"Precinct No. 2, school house, Jarvisville—Truman Payne, M. R. Post, E. K. Sommedville.

"Precinct No. 3, school house, West Milford—O. W. Post, D. D. Underwood, A. A. Ladwig.

"This 30th day of May, 1913.

"Board of education of Union district.

"By THAD CURRY, president.

"L. R. McMILLAN, secretary."

The result of the election was a good majority over the three-fifths required to carry the question submitted.

The same section 30 further states:

"If it appears by the result of said election that not less than three-fifths of the voters who voted on the question are in favor of authorizing the establishment of said school the board of education shall then proceed to obtain site, provide proper buildings, fix terms, etc."

The mandate of the people was made on June 24, 1913, and until the expiration of their term of office January 1, 1915, neither E. Thad Curry, president, nor Claude W. Gaston had carried out this order as the law plainly states they should, but we find them both signing a petition to their successors, asking that they also ignore the order of the voters of the district. However, the new board of education has contracted for two acres of land adjoining the present school property in West Milford, making in all four acres, which would seem sufficiently large for all necessary purposes, and upon which it is to be hoped it will build a suitable building for a high school, especially since the graded school building has been appropriated for the purpose and the grades placed in any old rooms that

might not be in fit condition for any other purposes. An instance it might be stated there is one room it has now rented situated on the river bank, fourteen by twenty feet, without any ventilation and little light, and no sanitary accommodations at all. Twenty-seven pupils attend school in this room. The old brick church used last year, was so bad it would not re-rent it, but continued to rent a room over in Grant district, to which a part of the grades must go.

The article in that Sunday's Telegram states further that a "beautiful site" can be purchased from J. B. Wright in Dog Town. No doubt this is true; but do the taxpayers want to establish two high schools? The high school, established at West Milford by a vote of the people is the only location in the district at which a high school may be located which will participate in the state school funds.

Do the men who signed the petition know that it would cost the district \$2,500 more per annum to have a high school located at Dog Town than on the site contracted for in

West Milford by the board of education? There is nothing in the preamble of this printed petition to indicate that they were informed of the fact.

This petition also states that only seventeen out of ninety-one prospective pupils would be more conveniently housed by having the high school located at the people ordered it located. The facts are that of the fifty-six pupils now enrolled in the high school, twenty-seven live in and east of the town of West Milford and would evidently be better accommodated by a building located on the site selected by the board of education than at any point west thereof.

The contributor of the article in that Sunday's Telegram seems very much wrought up over the fact that "the two members of the board of education ignored the petition and did not even consider it."

Why, indeed, should they consider it? Section 31 of the chapter before referred to states that "any district high school may be discontinued at the end of any year upon the petition

of at least seventy-five per cent of the taxpayers of the district." The petition presented does not contain anything like seventy-five per cent of the taxpayers of Union district, and legally has no more weight than if it had but one of the names appearing

(Continued on Page 11, 2nd. Sec.)

Keep Your Hair In Good Condition

The care of the hair begins with the care of the hair brush and comb. These must positively be kept as hygienically clean and the cheapest, most effective way is to wash them in warm water, to which a liberal amount of 20 Mule Team Powdered Boric has been added.

Then frequent shampoos in which a very liberal amount of 20 Mule Team Powdered Boric is used with any good, white soap or shampoo preparation. You will be rid of dandruff and that means that the condition of your hair will inevitably improve.

Buy 20 Mule Team Powdered Boric from your druggist and ask him to recommend some suitable soap.—Advertisement.

Rheumatic Fever

Surrenders to Anti-Kamnia Tablets

In the treatment of Rheumatic Fever many physicians employ purgatives, but Dr. M. P. Creed thinks that a mild laxative is better. When the patient is bilious he gives calomel in small doses, one-half of a grain every hour until a grain has been taken. Then after four hours he gives the patient a half ounce of citrate of magnesia, with a group of lemon to disguise the taste, or he keeps the bowels open with the mild laxative "Acoloda." The diet should be light, and all animal food should be excluded every 9 to 12 hours as required. These tablets may be obtained from all druggists in any quantity desired. Ask for A-K Tablets. Unexcelled for Headaches, Neuralgia, and all pains.

Resinol

heals skin diseases

If you have eczema, ringworm or other itching, burning, raw or pimply skin eruption, try Resinol Ointment and Resinol Soap and see how quickly the itching stops and the trouble disappears, even in severe, stubborn cases.

Resinol Ointment and Resinol Soap are everywhere. Resinol Soap is sold by all druggists.
